

## Packaging Compliance

Under **The Producer Responsibility Obligations (Packaging Waste) Regulations 2007**, obligated packaging producers must register with the Environment Agency and meet waste packaging recycling and recovery responsibilities.

Magnum Materials Ltd are obligated under the regulations and as we are committed to fulfilling all our environmental obligations we are fully compliant through our registration with UK government approved Packaging Producer Compliance scheme, Comply Direct. Our packaging producer registration number is NPWD321007.

The Packaging Waste Regulations focus on ensuring packaging waste generated from business activity in the UK is reduced, considered for re-use, recycled or recovered in line with targets outlined by the EU Packaging and Packaging Waste Directive.

On an annual basis we collate data on the packaging we handle within our company. This data determines a set unit of packaging recovery evidence which we finance.

Comply Direct can provide more information about the Packaging Waste Regulations: [www.complydirect.com/packaging/faqs](http://www.complydirect.com/packaging/faqs) or find out more at [www.gov.uk/packaging-producer-responsibilities](http://www.gov.uk/packaging-producer-responsibilities).
