

DLP-2100 Digital Label Press High-capacity, economical finishing

The DLP-2100 is able to accommodate a large roll of material (440 mm outside diameter), which drastically reduces stock cost from converters, and greatly simplifies operation by avoiding frequent roll changeovers.

A re-registering magnetic cylinder accepts interchangeable flexible steel dies that are fast to create and low in cost. Die length can vary greatly (102–305mm), meaning no swapping of cylinders is required. Servo-controlled motors also allow for pinpoint accuracy at high speeds, even with perforations.

In addition to inline print applications, the DLP-2100 can be used to convert blank labels.

Specifications

Print Speed:	9–18 m/min (6–12 IPS)
Print Quality:	1600 DPI full-colour output
Max. Print Width:	216mm
Core Sizes	76 mm
Max. Laminate	OD 280 mm
Laminate	Economical, self-wound and supported laminate (on a liner). Liner removal included for use with high quality, liner-supported laminate
Die Head Lateral adjustment	12mm
Max. Diecutting Width	230 mm
Max. Diecutting Length	304.8 mm
Cutting Dies	Flexible steel – any size from 102 mm to 304.8 mm repeat
Registration Sensor	Laser
Sensor Mark	5 mm x 5 mm
Back Slitters	2 - Allows slitting trim to rewind with matrix waste
Max. Finished Label Rewind	280 mm
Max. Waste Matrix Rewind	300 mm
Razor Slitter Assembly	5 inter label knives
Media Capacity	Outside diameter 440 mm on a 3" core (approx. 1000 metres in length)
Dimensions	233.7 cm L x 149.9 cm H x 76.2 cm W
Power	240v/110v 10amps

INKJET MACHINES

DIGITAL LABEL PRESS

High output for large brands and print shops

With the L901 Digital Label Printer inline, the DLP-2100 can produce more than 25,000 full-colour 3x4-inch labels per hour. For larger brands, this makes it ideal for bringing label production in house. Print shops can offload their smaller label runs, freeing up large format presses while reducing costs and setup times. Eliminating the need to outsource labels results in faster turnaround times, greater control and flexibility, and thousands of pounds saved.

The integrated L901's print engine makes printhead maintenance possible with the web intact, allowing for uninterrupted production. In addition, it delivers industry-leading low ink costs via five (CMYKK) high-capacity cartridges.

DLP-2100

DIGITAL LABEL PRESS

Print, die cut, and finish labels at up to 18 metres per minute

Print and finish labels inline

The DLP-2100 can print, die cut, and finish labels at up to 18 metres per minute, making it the fastest and most advanced digital label press in its class. This full-featured workhorse is capable of laminating, die cutting, waste removal, slitting, and rewinding to finished rolls that are ready for application.

Powered by **memjet**

- Print Inline
- Large Roll Capacity
- Laminate (with or without liner)
- Die Cut (re-registering, semi-rotary)
- Razorslitting
- Waste Matrix
- Intuitive Touchscreen Operation
- Dual-Rewind to Finished Rolls
